Sangrampur, Maharashtra

EDUCATION

VIT Bhopal University <i>B.Tech in Computer Science (Gaming Technology)</i>	Aug 2023 – Present CGPA: 8.49/10
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Computer Graphics, Artificial Intelligence Fundamentals, Game Physics, Database Management Systems	
Bapumiya Sirajoddin Patel Arts, Commerce and Science College <i>Class XII (HSC Board)</i>	May 2023 Percentage: 72.17%
Swami Vivekanand Rashtriya Dnyapeeth, Jalgaon <i>Class X (CBSE Board)</i>	Aug 2021 Percentage: 91.60%

TECHNICAL SKILLS

Programming Languages: C++, C#, Python, Java, HTML

Game Development: Unity Engine, VR Development, Physics Systems, UI Systems, Player Controllers, Level Design

Libraries & Tools: NumPy, Pandas, Git, GitHub, Blender

Other Skills: Cybersecurity Fundamentals, Data Analysis, Debugging, Problem Solving

EXPERIENCE

Red Users <i>Cybersecurity Intern</i>	Feb 2024 – Mar 2024 Remote/On-site
- Completed a one-month internship focused on cybersecurity fundamentals and secure web development. - Gained practical exposure to identifying web vulnerabilities and applying secure coding techniques.	

ACADEMIC PROJECTS

AI-Based Rainfall Detection System <i>Python, Pandas, Machine Learning</i>	2023
- Developed a rainfall prediction and analysis system using machine learning and data analysis techniques. - Processed and analyzed rainfall datasets across multiple regions using Pandas and Python libraries. - Implemented predictive models to identify rainfall patterns and improve weather analysis accuracy.	
Traffic Rules VR Simulation <i>Unity, C#, VR</i>	Jun 2025 – Mar 2026
- Developing an immersive VR-based educational simulation to teach traffic rules and road safety practices. - Designed interactive road scenarios and player interactions for practical learning experiences. - Implemented realistic VR controls and gameplay mechanics using Unity Engine.	
Galicia ARVR Game <i>Unity, C#, VR Physics</i>	2025
- Developed a physics-based VR interaction system featuring climbing and object interaction mechanics. - Implemented immersive gameplay systems including grabbing, movement, and environmental interactions. - Optimized interaction mechanics for smoother and responsive VR gameplay.	

LEADERSHIP & EXTRACURRICULARS

Core Member – NSS Unit, VIT Bhopal
Lead – PR and Outreach Team, Linpack Club VIT Bhopal
Sports – National-level Petanque participant; State-level player in Kabaddi, Shotput, and Sepak Takraw
Volunteering – Mega Tree Plantation Drive Lead (2025); Convocation Volunteer (2024)

ACHIEVEMENTS

Maharashtra State Certificate in Information Technology (MS-CIT) Batch Topper (98%)
Qualified NDA Written Examination (May 2023)
Secured Grade 'A' in Intermediate Drawing Grade Examination (Maharashtra, 2019)

ADDITIONAL INFORMATION

Languages: English, Hindi, Marwari, Marathi, German (Learning)

Hobbies: Gaming, Poetry, Drawing
